

Panther families,

If your child sees a counselor with Kentucky Counseling Center (KCC), the counselor should have reached out to you, or will be reaching out to you about continuing counseling services during this unexpected time out of the school building. If your student is currently with KCC, or you would like for them to receive mental health services, please go ahead and complete the consent form in the link below to receive telehealth services. Telehealth is a great opportunity to receive services via computer or other device rather than meeting with a counselor in person.

If you have any questions about KCC services or other mental health related questions, please feel free to call at 502-875-8658 Ext. 2243. If I am unavailable, please leave a message, and I will get back with you as soon as possible.

Thank you,

Kelli Hume, LCSW
District Social Worker
